For an expatriation to France, we recommend our **Euro Cover +** insurance solution.

Zone 4: Any country not listed under zones 1, 2 and 3.

5 > INCOME PROTECTION

We will pay a daily benefit or a disability amount if you cannot work due to illness or accident. This cover ensures that you receive a determined part of your salary for a fixed period.

You can take out this cover only if you are already covered for death benefit under the policy. You are free to choose the level of daily benefit (between €20 and €200) on condition that the following rules are followed:

- > **the amount of daily benefit paid over one month must not exceed 100% of your net monthly salary (limited to 70% of your net monthly income if you started or took over a business within less than a year),**
- > **the amount of daily benefit selected depends on the level of death benefit selected: for example, for a daily benefit of €20 the death benefit selected must be at least €20,000.**

You must be in paid employment to benefit from income protection cover.

Daily benefit:

Daily indemnities may be paid starting from the 31st day or the 61st day based on the option selected and for a maximum period of 3 years. The number of days paid per month is 30 days. Daily benefit cover applies from the 31st day or the 61st day of the exemption benefit: in case of financial difficulties caused by a leave of absence from work with the right to daily benefit, you receive free social protection cover. This benefit will stop when you reach the age of 65.

Disability pension:

We will pay a long-term disability pension if you are disabled through illness. The daily benefit is converted to an annual pension after a maximum of 3 years' payment of the daily benefit. The annual pension is paid once your condition has stabilised and until you reach retirement age, 65 at the latest. The amount of the annual pension is in proportion to the disability rate.
